

# Improve Your Automotive Lightweighting Processes

## with Bergen International Chemical Foaming Agents

Bergen International has a chemical foaming agent for your Automotive Lightweighting process. Our proven line of Automotive Lightweighting CFAs include products for Injection Molding, Blow Molding, Sheet Extrusion and Profile Extrusion.

Advantages to Bergen International's Automotive Lightweighting Chemical Foaming Agents include:

- CFAs for Use with TPO, PP, ABS, PE, TPE, etc.
- Reduced Parts Weight
- Reduced Cycle Times and Faster Line Speeds
- Bergen CFAs Can Be Added with a Small Feeder (unlike other additives such as Mucell which require a costly initial investment and is not easily relocated from one machine to another)
- Bergen CFAs Are Used and Proven within the Automotive Industry
- Cost Savings for Molders, Extruders and OEMs
- Bergen Can Assist with Onsite Product Approval
- Custom Product Development and Technical Assistance

Contact Bergen International today to see how we can improve your Automotive Lightweighting processes at **866.554.4951** or [sales@bergeninternational.com](mailto:sales@bergeninternational.com)

Since 1999, Bergen International has focused solely on chemical foaming agents—offering endothermic, exothermic and endo/exo blends compatible with most of the polymers used in foaming applications. We offer superior **Customer Service**—providing the right product, in the right physical form, and reasonable cost, when the product is needed. In addition, Bergen International's staff has extensive formulating and processing experience.
