

How to Improve Your Profile Extrusion Process...

Foamazol™ Chemical Foaming Agents Can Save Profile Extruders Money

Bergen International's line of Foamazol™ CFAs provides extruders many cost saving benefits.

- Faster Extrusion Rates
- Consistent High-Quality Foam Structure—very fine, uniform cell structure with consistent density
- Reduced Polymer Usage
- Improved Physical Properties—smoother surfaces, increased strength
- Immediate Parts Finishing

Bergen also has a great depth of experience to assist you on developing the best product for your specific needs. Foamazol™ CFAs offer extruders:

- Products for Virtually any Thermoplastics
- Products for Wire & Cable Wood-Plastics Composites
- Injection and Structural Foam Molding, etc.
- Custom Products

And most Foamazol™ CFAs are environmentally friendly so handling and processing are safe with many grades available for applications involving food contact. So call us today at **866.554.4951** to see how Foamazol™ CFAs can improve all your extrusion processes!

Since 1999, Bergen International has focused solely on chemical foaming agents—offering endothermic, exothermic and endo/exo blends compatible with most of the polymers used in foaming applications. We offer superior **Customer Service**—providing the right product, in the right physical form, and reasonable cost, when the product is needed. In addition, Bergen International's staff has extensive formulating and processing experience.
